DATA:

Lamp Factory, Budapest.

25X1

Enterprise Number 3009, later the Lamp Factory (Lampagyar), 158 Soreksari-ut, Budapest.

This factory was formed out of the former Frommer Weapons and Machine Factory which was divided into two factories:

- a) the part of the factory towards the town became the Lamp Factory,
- b) the part of the factory away from town became the Metal Goods and Fernance as Sersammarkayan.)
 Machine Tool Factory: this latter figured in a report several years ago.

 3./ Parts of the factory:

Administration: leaders, planning department, control (and the department) department (directly subordinate to the Ministry of Interior, performed defensive tasks; part of the frequently changed members [of this department] worked in the various work areas without attracting attention in order to watch the workers), calculations department, plant committee, pay roll, personnel department, and cadre department.

Other parts: Party office; Tool manufacturing plant; Gauge department; Smith shop; Metal-cutting shop; Press shop; Tempering shop; Galvanizing; Metal polishing; Screw shop; Volume processing shop; Test firing; Weapons assembly; Apprentice school and shop; Cabinet work shop; Electrician; Brick work, cappenter, and maintenance details; and Experimental shop.

The mission of the shop was:

- a) to test new weapons and accesories of weapons; for example, they worked on developing an anti-aircraft machine gun mount to be put on a tank, on the turret.
 - b) experiments on projectiles (physics thereof).
- c) preparation of special personal weapons; for example, for leading Soviet statesmen and for Hungarian sport celebrities.
